Updating on Aquetong Springs Park Committee Meeting

Barry Fetterolf made the following points concerning the progress on the park:

- Trees have been planted
- Possibility of hiring a consultant to plan in making the park habitable
- Stream restoration and develop additional trails
- Watercress is multiplying in growth due to the cold water from the spring

- Make the spring accessible to the public
- Include outside groups to preserve its integrity

Ms. Blaythorne noted that the Aquetong Watershed is monitoring and testing the water from the spring and will continue to do so.

### Wild Area Stewardship

Chair Moule briefly reviewed the Land Stewardship Observations and Practices document that was distributed to EAC members. The document will be passed onto the Board of Supervisors for their review. It was suggested that a map would be helpful if added to the document.

### Naming of four unnamed creeks in Solebury Township

In naming a creek, it is helpful in obtaining grants for support of that particular waterway including ongoing maintenance issues. Ms. Blaythorne is in the process of referencing the unnamed creeks on a map. It has been suggested to open it up to the public for suggestions of creek names.

### Proposed cleanup day in April, 2016

At this time, the Aquetong Watershed and Primrose Watershed have set a date of April 9<sup>th</sup> for their designated cleanup day. Pidcock Creek Watershed, Bowman's Hill, Carversville and Lumberville have not set a date.

## **VI. NEW BUSINESS**

### Tuscarora and Ely Roads

It was noted that on-going testing is done in this area, and that DEP and EPA must be kept "in the loop" on any issues that occur.

Chair Moule suggested that EAC come up with specific recommendations in keeping control of the situation. Concerns of oil seeping into the Aquifers and what have other townships done to address any similar issues? Chair Moule has offered to do an inquiry on the situation.
