Points of Interest

What stands out in this reporting period

1

Road Hazards' July spike (52, up from 12 in June)

The largest anomaly in this period, approximately 4x increase in July. This can be attributed to the number of summer storms.

2

Traffic Enforcement's August decline (152 → 82)

The sharpest single-month drop of any tracked category. The Department can attribute this decline to vacation schedules and less traffic on the roadways due to the time of year.

3

Crashes and Deer-Related incidents both spiked in June (21 and 7)

National Pre Night Out

The STPD and NHBPD partnered along with the STPF and several other first responders and community organizations to celebrate both municipalities! This year we moved the location to Logan Square parking lot and held the event the night before the National Night Out.

The event was a HUGE success with several people in attendance!

Thank you to all Township Members who helped make this a success!
