Re: Public Works Department Report for June, 2026

The following is an outline of the work performed by the Public Works Department during the month of June

Roadway Maintenance and Street Repair

- Filled potholes as needed on Township owned roads
- Inspected all three dirt roads multiple times this month.
- Public Works Director sent emails to several residents on Old Carversville Road about the upcoming pipe replacement work that will take place on Old Carversville Road starting on July 6th. We will add additional signage to the Road Closure Barricades as requested by the residents. This will inform others that the road will be open to specific addresses so that the residents will still get their deliveries and trash collection during this project. This project is expected to take up to (30) thirty days to complete.
- Public Works Crews investigated and dug up a minor sinkhole that was within the Right of Way at 706 Fox Tail Court. We worked with the residents to make sure they were able to get to and from their home each day. The residents were extremely happy with the restoration work that we performed at the end of their driveway and parts of their lawn.
- Crews milled out and performed base asphalt repairs to a section of Lower Mountain Road near Street Road that was broken up along the roads edge
- Crews milled out several patches along Solebury Mountain Road that were starting to become potholes in the roadway. All patches were filled in with 9.5mm Asphalt and rolled
- We have been actively road mowing along select areas of the road with heavy vegetation to improve sight of line issues

Storm Sewer Maintenance / Watershed and Flood Protection

- Checked storm sewers before and after forecasted rain events to ensure proper drainage
- We sent out the leaf vacuums ahead of some forecasted heavy rains to clear the ditches along the dirt roads as well as the storm drains in other low lying areas

Sign Work

- Replaced several signs that were faded, or didn't meet the MUTCD reflectivity requirements
- We removed all of the "No Thru Traffic" signs on Lower Mountain Road

Lake Solebury

- Met with Contractors to get estimates for minor work to be completed on the 2nd floor of the lower building
- All of the interior contents of the Lake House and Garage were removed and hauled away in dumpsters

Fleet Maintenance

- Crews greased all equipment and serviced small tools as needed throughout the month
- We performed minor repairs to Police vehicles as needed
- Performed minor repairs to the Public Works Trucks and Equipment as needed
- Our Backhoe had its full service completed on June 8th by Stevenson Equipment. This work was covered under the extended warranty for this machine.
- Both truck lifts were inspected on June 10th. No issues were found.

Miscellaneous

- Reviewed and responded to (140) PA 1 Calls requests per the (PUC) Public Utility Commission requirements We are at a 100% response rating for this month
- Deployed barricades for the Lobster Fest, Solebury High School Graduation, and some tree and wire issues throughout the month
- We continue to mow select areas of the Township with our Electric 60' riding mower that we purchased in the fall of 2024. This mower has been very reliable and easy to use.
- (DVIT) Delaware Valley Insurance Trust performed their annual inspection on June 4th, 2026
- All school flashers were shut off temporarily for the summer break. They will be turned back on one (1) week prior to the start of the 2027 school year

Public Works Director, Solebury Township
