What’s In Your Drinking Water?

More than 43 million people living in the United States rely on private wells as the source of their drinking water.

Yet, the Federal Safe Drinking Water Act and, in most cases, state laws do not regulate the quality and safety of water from private wells.

Rather, individual homeowners are responsible for maintaining their private wells and for monitoring their water quality.

This lack of regular monitoring makes periodic assessments of private wells that are conducted at the national, regional, and local level important sources of information about well water quality.

For example, a 2009 report from the National Water-Quality Assessment Program of the U.S. Geological Survey surveyed water-quality conditions of more than 2,000 private wells across the United States between 1991-2004.

The study measured more than 200 properties and contaminants—including pH, bacteria, major ions, nutrients, trace elements, radon, pesticides, and volatile organic compounds.

The high number of contaminants assessed and the broad geographic range of the study provide a foundation for improved understanding of the water quality of the major U.S. aquifers tapped by private wells.

To read the report, visit: pubs.usgs.gov/circ/circ1332/

To ensure that your drinking water is safe, have your well water tested annually for coliform bacteria and every three years for pH and total dissolved solids.

In addition, if you can determine any potential contaminants that threaten your water supply—such as nitrate, arsenic or radon—you can include other tests and analyses to ensure the safety of your water.

Be sure to use a certified laboratory and keep records to facilitate year-to-year comparisons.

To obtain a drinking water sampling kit, to locate a local certified testing lab, or for help with questions about the tests that are right for your sample, contact:

- Brian Swistock, Water Resources Specialist, Penn State Extension (brs@psu.edu)
- Les Isbrandt, certified Master Well Owner (lesisbrandt@comcast.net)

It’s Income Tax Season

Earned Income Tax Reminder

Solebury residents now file and pay the 1% Earned Income Tax (EIT) and the $52 Local Services Tax (LST) through the Bucks County-wide tax collection firm, Keystone Collections Group.

The 1% EIT is assessed by Solebury Township (0.5%) and the New Hope-Solebury School District (0.5%) on the earned income of Solebury residents as well as on that of individuals who live outside the Township but work in Solebury.

Earned income and net profits from all sources for a specific calendar year that total less than $5,000 are exempt from the EIT.

E-filing of the EIT and LST is available on the Keystone website.

For more information on all matters related to the EIT, contact Keystone:

www.keystonecollects.com
Bucks County Office
1243 Easton Road, Suite 101
Warrington, PA 18976
Mon.-Fri., 8 AM-4 PM

2010 Taxes and Earlier

Any returns that remain to be filed or paid for 2010 and earlier are to be submitted to former Township EIT collector H.A. Berkheimer: www.hab-inc.com.
Dear Taxpayer:

Through the Solebury Messenger, the Township gives you, the taxpayer, firsthand information about Township matters. In these pages, you will read about what is being done to preserve and improve the quality of life as you know it, as well as how your hard-earned tax dollars are being spent.

The Solebury Messenger is created by Kay Hayes and Marie Collins, of School Window Publications; the newsletter celebrated its 15-year anniversary with the publication of the Nov. 2010 issue.

This bimonthly periodical is primarily ad-sponsored—a method which allows the Township to provide taxpayers with six professional newsletters each year for a fraction of the actual cost. To place an advertisement supporting this periodical, contact Kay (609-397-8483 or ads.schoolwindow@gmail.com).

If you live in the Township, but are not currently receiving a copy of the Solebury Messenger through the mail, please contact Kay so that she can add your name and address to our mailing list.

Other correspondence should be directed to the appropriate Township official. For more information, see the Township directory on page 7.

Office and Fax 215-794-7634
Due to recent thefts of copper downspouts in the Township, Police Chief Dominick Bellizzie urges residents to take home safety more seriously than ever, particularly when away on vacation.

In December the police department received three reports about copper thefts from residents along Upper York Road, Upper Mountain Road, and Stony Hill Road.

All thefts occurred during the night, and numerous sections of downspouts and gutters were removed from each house.

Police urge anyone who sees or hears anything unusual during the night around their home to call 9-1-1 or 215-348-7400.

If your house has copper downspouts or gutters, police recommend taking extra measures to secure the piping to your dwelling. Residential security cameras can also assist police if any activity occurs around your house.

The vacation safety steps below can help decrease the likelihood of thieves seeing your home as opportunity for burglary while you are enjoying your vacation.

The theme of the tips is to "make your home look lived-in when you go away," Chief Bellizzie explained.

- Let friends and neighbors know when you will be away for vacation.
- Before you leave, let police know exactly when you will be away and how you can be reached.
- If you are leaving a car home, ask a neighbor to move it each day.
- Set any alarms and be sure the alarm company knows how to reach you.
- Don’t leave trash or recycling cans at the roadside for pickup—ask a neighbor to move the cans for you at the appropriate times.
- Cancel newspapers (or have someone pick them up) and have the post office hold your mail.
- Set timers to turn lights on and off intermittently (don’t leave the porch light—or other outside light—on all day and night).
- Lock all doors and windows.
- Don’t leave valuables in plain sight.

For help with any non-emergency home safety concerns, contact Township Police at 215-297-8201 during business hours.

Stormwater Pollution: Everyone’s Problem
Part 3: Reducing Runoff

In addition to reducing the pollutants stormwater can pick up as it runs across the land, each of us can help manage stormwater so less of it runs off our properties, and more is absorbed by the soil.

Stormwater management used to emphasize removing water quickly from land to prevent flooding, but that sent large volumes of water rushing into local streams, which quickly eroded stream banks, muddying the water and changing the shape of the waterways.

Also, fast-moving stormwater picks up more pollution from lawns, farms, and roads, turning creeks and aquatic habitats into open storm sewers.

It is now understood that the key to proper stormwater management is slowing the rate of runoff. This allows time for rainwater to sink into the ground rather than run into storm drains.

Installing a rain barrel under your downspout is one easy way to keep rain on your property. These containers collect and store rainwater, allowing it to be used for watering containers or calcium), conserve water for use during drought, and can be designed to fit in nicely with your house and landscaping.

Rain gardens are another great way to reduce runoff and add beauty to your property.

Rain gardens are graded slightly to collect several inches of stormwater, which allows time for the water to seep into the soil or be used by the plants—two natural processes that filter the water and prevent it from polluting our waterways.

Rain gardens recharge our groundwater resources, and as an added benefit, attract butterflies, beneficial insects, and other wildlife. We can also encourage infiltration by planting more native vegetation elsewhere on our properties, keeping grass tall enough to slow down water (three inches or higher), and installing silt fences during earth disturbance activities.

By using rain gardens and other stormwater management techniques at home, we can have a positive, cumulative effect on the quality and quantity of our drinking water.

Adapted from articles by Krista Scheirer, Conservation Coordinator at the Perkiomen Watershed Conservancy.

New 2014 Township Fee Schedule

The Board of Supervisors adopted a new Township fee schedule in January.

The fee schedule covers everything from the purchase of copies of specific ordinances, to subdivision and land development fees, to building permit fees, and more.

The Township’s extensive review of the actual costs associated with the fees resulted in a number of fees being reduced in the 2014 schedule.

The updated fee schedule is posted on the Township website under the Administration tab.

Backyard Stewardship Workshop

As part of the Solebury Bird Town program, the Township and Bucks County Audubon Society are offering a workshop in backyard stewardship.

Any homeowner, gardener, teacher, or land owner who is interested in helping the environment can benefit from this program on restoring ecology to backyards and other properties.

This workshop on backyard design and ecological stewardship includes two sessions:

- **Session 1:** Saturday, March 29, 10 AM - 3 PM
- **Session 2:** Date to be determined by attendees.

The first session is conducted in a classroom setting at the Bucks County Audubon Society (BCAS) Visitor Center on 2877 Creamery Road. A companion textbook, notebook, light morning fare, and lunch are included.

The second session involves site visits, demonstrations of the course’s backyard assessment tool, and opportunities for students to practice using it.

The cost of the workshop is $55. To register, contact BCAS at 215-297-5880.
Township Targets Roads for Repairs

Working in his role as Roadmaster, Township Manager Dennis Carney recently inspected all Township roads to develop a new five-year plan that estimates which roads are likely to require repaving between 2014-2018.

At the beginning of each year of the plan, Dennis reviews the roads targeted for that year. Depending on road conditions, he pushes back the repaving of those that fared better than expected and moves up those that deteriorated faster than expected.

This year’s list includes roads that will be repaved using a typical asphalt overlay as well as roads that will be repaved using a tar-and-chip treatment.

Asphalt overlay is required for roads that experience a high volume of traffic, while tar-and-chip treatment—which involves laying a coating of tar, embedding the tar with stone chips, and using a driveway-type sealer to create a smooth surface—can only be used on lightly travelled roads.

The following roads will be resurfaced as needed in 2014:

- Honey Hollow Road
- Great Oaks Road
- Sunset Drive
- Arboresque Drive
- North Sugan Road (from Mechanicsville Road to Sugan Close)
- Red Fox Drive
- Paddock Drive
- Bridlewood Drive
- Creamery Road (from Mechanicsville Road to Route 263)
- Paxson Road (from Comfort Road to Sugan Road)
- Hagan Drive
- Bogle Drive
- Parkside Drive

Do You Have an Idea You Would Like to Offer to the Township?

Solebury Township welcomes suggestions from residents. Visit our website and click on the Suggestion Box photo. Your e-mail address is required.

Solebury Emergency Notifications

ReadyNotifyPA.org

Use this website to sign up for WeatherWarnings issued by the Township. WeatherWarnings are issued only for true emergencies.

If you wish, you can also choose additional notification options. And you can specify exactly how you want to be notified.

Solebury Email Alerts

Township email alerts announce road closings, Police Dept. warnings, changes in meeting times and locations, articles posted on the Township website, and more.

To sign up, visit SoleburyTwp.org, click the News tab, then click the words “Email Alerts.”

Believe in Yourself

Be fit. Be Strong. Be You!
Supervisors Appreciate Volunteers

The 2014 Board of Supervisors is pleased to present the Township residents who volunteered to staff the Township’s advisory boards and committees this year.

“Solebury is a great community because so many people step forward in so many ways,” explained Supervisor Chair James Searing.

“Volunteers serving on Township committees or specific projects provide insights, experience, and keep us focused on the real needs of residents,” he noted. “They help the Township identify emerging issues, plan for the future, and bring a real-world perspective that benefits everyone.”

Please join the supervisors in thanking your neighbors for their service.
