Good Housekeeping Practices for... RESTAURANTS & FOOD SERVICE ESTABLISHMENTS

**Control Stormwater Runoff Pollution. . .
Protect the Delaware Estuary and its Streams and Rivers**

Be a **Clean Water Partner** by preventing stormwater runoff pollution from your site. Controlling stormwater pollution can be simple and inexpensive. Preventing stormwater pollution from occurring is certainly less costly than cleaning up water pollution after the fact. Preventive measures include common sense good housekeeping practices for the outdoors like sweeping regularly to remove silt, sand, and litter from your parking lot, covering dumpsters, and controlling kitchen grease waste stored outside.
